**Details of the facilities for innovations**

<b>Establishment</b>	The institution has created a separate department in 1996 dedicated for research in the field of Ayurveda.
<b>Aim</b>	To create, conduct and monitor Research work in the institute
<b>Objective</b>	To aware, facilitate and help the researchers in the field of ayurveda To provide clinical services for the establishment of classical and new ayurvedic formulations
<b>Services</b>	<ol style="list-style-type: none"> <li>1) Organisation and Conduction of clinical research</li> <li>2) Ayurvedic Drug development</li> <li>3) Ayurvedic drug analysis</li> <li>4) Guidelines for preparation of standard protocols and synopsis</li> <li>5) Guidelines for Preparation of scientific research reports, dissertations</li> <li>6) Awareness programmes</li> </ol>
<b>Beneficiaries</b>	Under graduate, post graduate students and Ph.D. fellows of Ayurveda and other faculties Ayurvedic drug manufacturers Ayurvedic practitioners Researchers working in the field of Ayurveda
<b>Infrastructure</b>	This department is well equipped with 100 beded ayurvedic hospital (available in Arogyashala Rughnalya) for Clinical trials of Ayurvedic medicine. Institutional Ethics Committee for monitoring the ethical issues related to clinical research. Facilities available to follow GCP guidelines for the trials. The department is having drug testing laboratory for analysis of ayurvedic medicine where GLP guidelines are followed. This department is having Scientific Advisory Committee which consists of experienced, research oriented members to help in the field of research and solutions for the critical issues experienced during the course. A separate platform of " <b>Research Club</b> " for encouraging the students, teachers for their participation in research work.
<b>Working</b>	Scientific and appropriate designs, novel ideas and references are provided to the concerned researchers for writing their synopsis, protocols and reports. Undergraduate, post graduate students and Ph.D. fellows of Ayurvedic and other than ayurveda faculty, practitioners, ayurvedic drug manufacturers have taken benefit of this research centre. GLP is followed for laboratory analysis of ayurvedic medicine. Standards of Ayurvedic Pharmacopoeia of India (API) are adopted for the analysis of ayurvedic medicine.

	<p>In house standards are maintained for those do not have API standards.</p> <p>All academic and professional(commercial) clinical trials are registered on (CTRI) Clinical Trial Registry India portal before commencement at the institute. GCP is strictly followed for conduction of clinical trials.</p> <p>Students of all professionals those who are interested in learning, participating or who wish to start his or her research project individually are asked to become member of Research Club by submitting an application form.</p> <p>Programme of reading is organized for the members of Research Club twice in a month. One research paper published in a standard research journal is discussed among the members of club in regard with the basic concept of paper, methodology adopted, tools used problems faced, outcome and interpretation of the results.</p>
<b>MOUs</b>	<p>MOUs are formed for various research activities like Safety toxicity studies and pre clinical efficacy studies carried out from renowned institutions those are having Animal house facility and Clinical trials with the sponsor in case of sponsored trials.</p> <p>MOUs are also framed with the participant institute for collaboration with reference to the projects in funded research schemes</p>
<b>Current Status</b>	<p>More than 46 professional clinical studies of ayurvedic medicine of renowned ayurvedic manufacturers in India have been completed at this centre.</p> <p>At present 120 members are participating their work using the platform of Research Club.</p>
