**Details of Mock drill for the management of complications of
KaumarPanchakarma**

While performing Panchakarmaprocedures, there are chances of occurrence of complications during or after the procedure. To avoid such complications, training in the form of mock drill is given to the persons handling the patients according to the following procedure-

If any complications such as Heen, Mithya or Atiyoga is found; then following measures are taken:

1. In case of Heen yoga – The procedure of that particular karma is repeated with concise and precise precautions.
2. In case of Atiyoga-
 - a. The procedure of that particular Karma is stopped immediately
 - b. In Jalukaavcharan and Basti, if bleeding occurs then mopping, bandaging and other emergency treatments are done.
 - c. In case of heavy bleeding and hemorrhage, Blood transfusion facility is kept ready.
 - d. In case of burns especially due to swedanaatiyog, silver sulpha ointments and burn treatment is followed.
 - e. Patient is also monitored for allergic reactions.
 - f. Emergency medicines are kept ready and monitoring is done for pulse, Blood pressure and respiration etc.
 - g. In case of any other infections, Antibiotic coverage is given.
 - h. Rest is advised depending upon the severity.
3. Symptomatic treatment is given accordingly in intensive care unit of Aarogyashalahospital.
4. Documentation is well maintained in the department.
